

Julie Bishop

The Hon Julie Bishop MP
Minister for Education, Science and Training
Minister Assisting the Prime Minister for Women's Issues

I am pleased to endorse the Arctic Climate Leadership Challenge.

This is an impressive and worthwhile endeavour that provides young Australians with opportunities to learn more about the role they can play in reducing the impact of climate change.

The Australian Government welcomes this initiative and its innovative approach to climate change education for Australian students.

I am sure that the young Australians involved will benefit greatly from your dedication and vision and that of your colleagues.

A handwritten signature in blue ink that reads 'Julie Bishop'.
